

**Complex initiatives made simple.**

## The Solution

Fulcrum Methods EP Tracker is a structured approach for medical groups and health systems to centrally administer and track meaningful use registration and reporting/attestation for their affiliated eligible professionals (EPs).

## The Product

Using our SaaS-based tool, hospitals, healthcare systems, and medical groups can provide administration and oversight to affiliated EPs to ensure they have properly registered for and successfully completed requirements to qualify for meaningful use incentives. All critical meaningful use registration, reporting, and attestation information is readily accessible in a user-friendly format. The EP Tracker is highly adaptable and provides views of registration and attestation status for individual physicians or groups of physicians. Users can also track remediation status and incentive funds flow to physicians.

The tool tracks critical EP information throughout all three stages of meaningful use and beyond. With the EP Tracker healthcare organizations can:

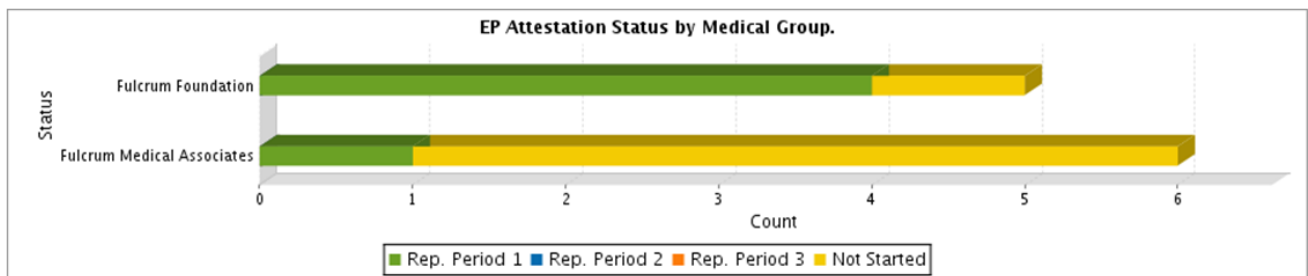

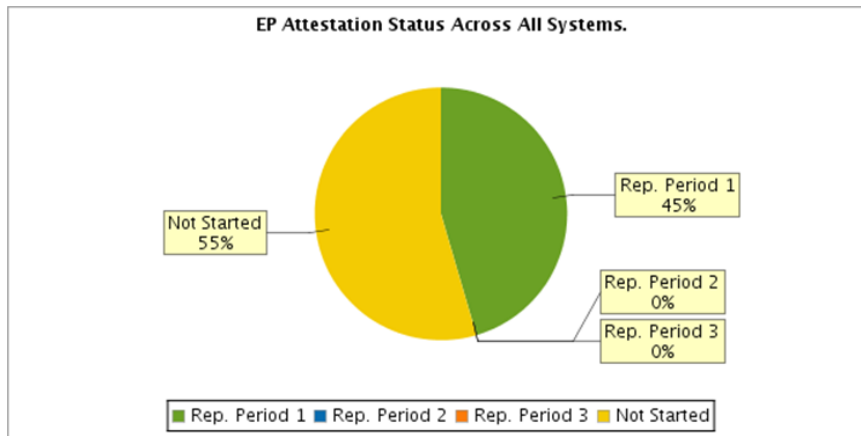

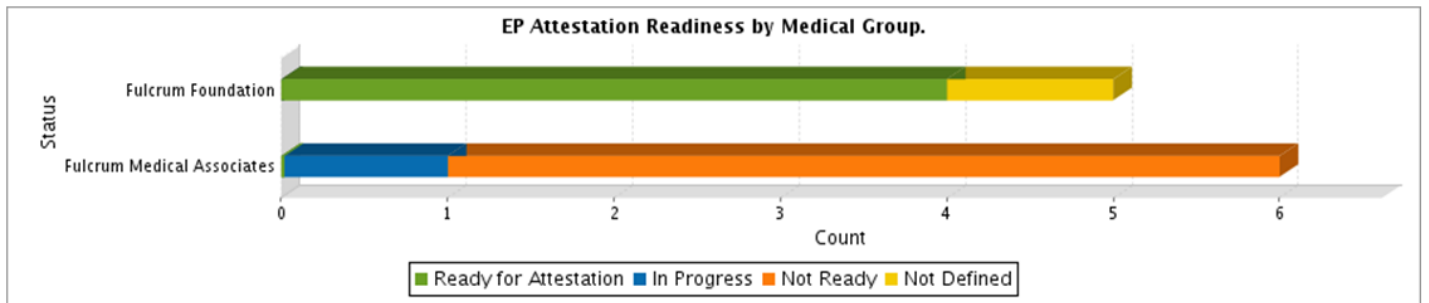

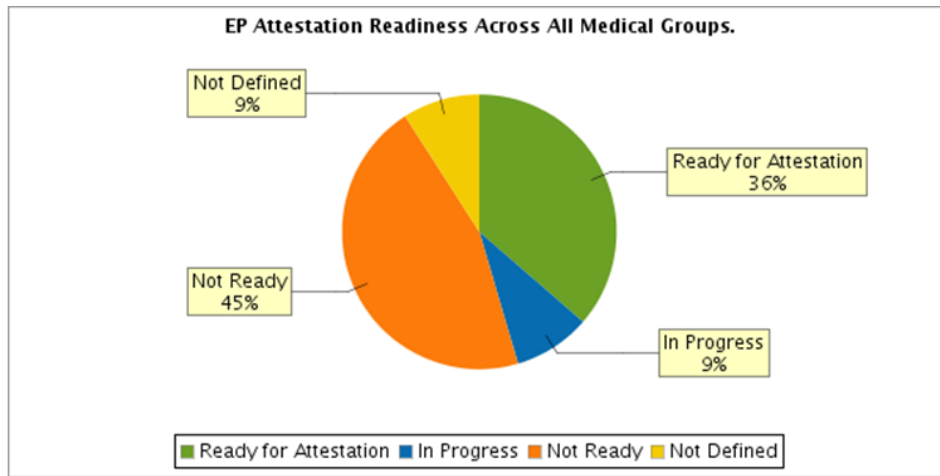

- Centrally administer the systematic and lifelong process of individual EP registration and reporting/attestation
- Assess individual EP readiness
- Assess medical group readiness
- Track attestation
- Estimate EP funds receipt by year and program
- Monitor EP funds flow
- Track EP funds assignment
- Track individual EP remediation tasking
- Assist with EP and medical group compliance management
- Promote master file maintenance

## The Power

- Establish program structure and logistics for affiliated EPs
- Establish organizational governance and oversight efforts for affiliated EPs around meaningful use
- Manage risk associated with the process of having affiliated EPs attest to meaningful use
- Track the maximum available incentive payment for affiliated EPs
- Establish a reasonable reporting and attestation schedule for affiliated EPs
- Help prepare EPs for future stages of meaningful use
- Strengthen organizational relationship with affiliated EPs
- Employ a project-ready, easy-to-use, and intuitive tool
- Highly complementary to Fulcrum Methods' Meaningful Use Assessment Tool
- Have instant access to the EP Tracker and avoid the time and expense of developing a tool internally
- In conjunction with EP Tracker, Fulcrum Methods is also available to manage the administrative services provided to affiliated EPs discussed above
